Microbes, mad cows and militaries: exploring the links between health and security  
Evidence on the linkages between global health, aid, trade, diplomacy, and national security indicates that state action on health is often motivated by foreign-policy interests rather than a desire to promote health equity or achieve humanitarian benefits. Brazil's blessing in disguise: how Lula turned an HIV crisis into a geopolitical opportunity. Such efficiency is determined by the quality of the regulations and permits, since ineffective and unclear regulations help to increase the level of corruption in at least two different ways: . control this strategic and economically valuable passage  
Johnstone is concerned that the obviously commendable and  
uncontroversial desire to prevent genocide has provided a  
pretext for great power interference in the affairs of smaller  
states.
