To overcome these Big Data challenges in the companies and large organizations, a corporate training program in Big Data should be organized by the business owners and managers. In general, BHD has complementary dimensions - large size, disparate sources, multiple scales, incongruences, incompleteness and complexity [3]. Finally, data-driven findings might be generalized as a conclusion applied to the entire unobserved population.

In Stock. Orange4WS environment for service-oriented data mining. Thus, in BHD studies, the classical notion of statistical significance morphs into scientific inference that is based on joint modeling of all elements of big data using exploratory, classification, and pattern-tracking methods.
