With human populations exploding all over Earth, a new destination that offers plenty of Mars Colonization to expand is going to look like a good investment. Thus, a landing in late or early is likely.

It's boring. Receive news, sky-event information, observing tips, and more. Another problem with space-bound fantasies is that only people from rich nations get to leave Earth. At a speed of 30 miles per second, Galileo vaporized within seconds.

However, does informed consent immediately make it ethical? Containment seems the only option, but it is a major challenge in the event of a hard landing i.
