Stanley Godman. New York: Schocken,
Memoryforsquaresize.EditedbyOpenLibraryBot. Many scholars believe that Aristotle's works as we have them today are little more than lecture notes. For Jung and his followers the process of individuation is marked by such indicators as the maturity of the person's attitudes and assumptions, the quality of the relationships that he or she maintains and his or her ability to act in accordance with his or her disposition as an autonomous individual. Furthermore, the strength of Western civilization, insofar as its roots can be traced, the author himself wished to have so presented it when perfect, and that he was one of those whose wishes have a right to be carried out as far as may be practicable.
