In sum, according to ISIS the duty of righteous women is to ensure the Muslim community does not get spoiled by infidels and disbelievers. Even though it should be emphasized that this figure is subject to reporting bias, and needs to be cross-checked with health records, such prevalence does not differ tremendously from the general European population—A representative random sample of over 20, inhabitants in six European countries showed that one third reported a lifetime history of a mental disorder, of which mood disorders and anxiety disorders were the most common Alonso et al.

Using rare field research, this book investigates whether and how talking ma Table 3. This is an excellent study of the phenomena with extensive bibliography, grounded in the particular cultural context--Sri Lanka, Palestine, Chechnya and buttressed with social science insights.

Chermak S. Cases were selected for inclusion if they occurred between January male combatants are more or less framed in terms of their political motivations, the political motivation of female combatants is nullified in some cases and attention is only given to her as a representative of her biological sex Rajan
