Should Heinz have broken into the laboratory to steal the drug for his wife? In recent years, Kohlberg's theory has been criticized as being Western-centric with a bias toward men. Lawrence Kohlberg primarily used male research subjects and with having a narrow worldview based on upper-middle-class value systems and perspectives.

At Stage 3, the emphasis is on being a "good boy" or "good girl" in order to win approval. Lawrence Kohlberg points out that his cognitive developmental approach to moral education was focused on the child or adolescent's processes of moral reasoning rather than on his or her mastery of abstract concepts, emotional self-control, or outward behavioral conformity to moral norms. The establishment of the center, however, indicated that Kohlberg was increasingly concentrating his research and writing on psychology in relation to education, rather than on so-called "pure" psychology. In particular, he developed by

psychologist Lawrence Kohlberg, this theory made us understand that morality starts from the early childhood years and Lawrence Kohlberg be affected by several factors. Different individuals have different viewpoints.
