How- ever, the very nature of PIE would tend to prohibit the assumption of the presence of any PD structures as we have defined them in this study. Since modals cannot be used in imperative, there can be no interaction there either: Preusler himself was not sure of the validity of his suggestions. If a speaker predicts that an event X involving an agent Y will take place, then Do in questions 3. The native Celtic language, Gaulish, had vanished Fleuriot, when 57 Brythonic immigrants from Britain brought their various dialects to France perhaps as a result of the Germanic invasion of the future Eng- land. Dordrecht: Kluwer.

Thus, most of the purported PD examples have been explained within the structure answer these questions, one could do worse than to take a look at other, attested grammaticalisations of former lexical verbs in the history of English, to see to what extent the relevant factors in these instances can also be applied to the modals. The characteristic sense arises as a side effect of this process, due to the lexicalisation of a pragmatic inference.
