Unlike Karakum vegetation in Kyzlkum is on partial land. This is a natural gas field in Derweze, Turkmenistan that collapsed into an underground cavern inbecoming a natural gas crater. The next morning, a somewhat delayed start after breakfast. Standardeditorialrights.Contactyourcompanytolicensethisimage. The karakum possesses large reserves of oil, natural gas, and the third largest deposits of sulphur in the world. Camping just beyond the pit on the nearby dunes is highly recommended. MichaelBurke.Naturally, the crater is a popular tourist attraction, and almost the sole point of interest in the country for a typical tourist not like me, lol...
