The latest Kathy Reichs' Temperance Brennan book is something less than her earlier books. And no ID of her own? You are in the India store Not in India?

PerhapsReichsisrunningoutofideasandshouldconsiderretiringBrennank Honestly just reading these books now because I'm so freaking close to finishing this series! Choosing angles not addressed in Jefferson Bass's Body Farm, she pieces her cases together with true wit and powerful scientific thinking, while also progressing a great personal backstory that spans two countries. The basic premise of this book becomes much more complicated as the story goes on.
